Enviro distributes essential medicines among 1000 frontline staff at various sites to ensure overall safety, well-being

Published on June 24, 2021

Gurugram: Enviro—Integrated facility management of Vatika Group, today distributed essential medicines to 1,000 frontline staff at various sites in Noida, Greater Noida, Gurgaon, and Faridabad to ensure their complete safety and well-being during the Covid pandemic. Over 1000 strips of Vitamin C and Zinc tablets were distributed among security guards, housekeeping staff, gardeners and others to extend help to the last person standing in the queue.

“The pandemic has shifted our priorities towards safeguarding the health and rights of everyone. As a responsible organization, we are taking our best steps by keeping each and every little aspect in our minds. These essential medicines will not only boost the immunity of frontline staff but will also ensure their safety against a possible third wave. As we advance towards a recovery phase, these little efforts are essential to make sure that our long battle against the pandemic is not lost,” said Mr. Ajay Kumar Singh, President & CEO, Enviro.

Enviro has been at the forefront of the relief measures since the onset of the pandemic and the organization has taken every step possible for positive results. Recently, it successfully conducted a drive-through vaccination camp at Vatika Business Park in Sector 49, Gurgaon where 200 doses of Covishield vaccines were administered to beneficiaries above 45 years of age. Apart from this, it also organized many vaccination camps across multiple societies in and around Gurgaon benefitting 638 people till date.
